SUMMARY

Results-driven Software Engineer with years of experience in frontend and backend development. Proficient in building web applications using technologies such as JavaScript, PHP, React, Node.js, Express, PostgreSQL, MongoDB and more. Demonstrated success in leading projects from concept to deployment and improving existing systems. Strong team player with a focus on delivering high-quality, user-centric solutions.

SKILLS

Html, CSS, Javascript, PHP, Laravel, Python, Wordpress, Shopify, Contentful, Elementor, Vue, Vuex, Angular, NgRx, React, Redux and NextJS, Bootstrap, TailwindCSS, SCSS, Git, React Testing Library, Jest, NodeJS, Express, Jira, Trello, SailsJS, MongoDB, PostgreSQL and MySQL, AWS, Ruby, Rails.

WORK EXPERIENCE

Aug 2024 - Present | **Volunteer Software Developer** - [FreeUKGenealogy](#)

- Design and development of web accessibility for users across all sister websites for FreeUKGenealogy using ruby and rails, docker and MySQL.

Jan 2024 - Present | **Backend Engineer** - [Verdant Devcore Technologies](#)

- Spearheaded the setup of the backend system using Javascript, Node.js, Express, and PostgreSQL, and successfully deployed the application on Render, ensuring a robust and scalable infrastructure.
- Developed RESTful APIs and optimized PostgreSQL database queries, resulting in an improvement in data retrieval speed and system integration.
- Improved existing projects by adding new features and resolving technical debt, increasing application performance.
- Implemented unit tests and conducted performance optimizations, reducing bug occurrence there by enhancing system efficiency.

Apr 2022 - Dec 2023 | **Frontend Engineering Team Lead** - [GladeFinance](#)

- Directed the frontend engineering team in a product-led fintech environment, overseeing the development of critical features including account creation for personal and business accounts, local and international transfers, card management, loan applications, POS integrations, invoice management, ticketing, payroll systems, and checkout processes.
- Enhanced application speed, optimized frontend performance for essential app functionalities, worked closely with backend teams, product managers, and QA to integrate frontend solutions seamlessly and deliver cohesive fintech products.

- Consulted with stakeholders to gather requirements and align frontend strategies with business objectives and user needs.

Oct 2021 - Mar 2022 | **Frontend Engineer** - [Myxellia](#)

- Utilized modern frontend technologies such as JavaScript, React, and CSS frameworks to deliver responsive and high-performing web applications.
- Collaborated closely with UX/UI designers to implement visually appealing and intuitive user interfaces, enhancing user engagement and satisfaction.

Apr 2021 - Sept 2021 | **Software Engineer** - [Verdant Devcore Technologies](#)

- Completed two full product life cycles, overseeing development from initial concept through deployment, utilizing Jira for project management and ensuring timely and high-quality deliverables. [Cligohr](#), [transitOnline](#)
- Developed key features using React for the first project and Sails.js, MongoDB, and Vue.js for the second, contributing to enhanced functionality and user experience.
- Collaborated closely with designers, frontend developers, and product managers to ensure seamless integration and alignment with project objectives.
- Conducted thorough testing and debugging, leading to reliable software performance and successful product releases.

EDUCATION

- B.Tech. Mathematics - **Ladoke Akintola University of Technology** | 2015
- Fullstack javascript Developer Certificate - [Udemy](#) | 2019

CERTIFICATION

- Mobile Web development - **Google Africa Developers Scholarship** | 2021
- Software Engineer - [UK/NG Tech hub Dev Placement](#) | 2021

VOLUNTEERING

September 2024 - Present | [DotCampus](#)

Volunteer Software Development Mentor

- Mentored aspiring developers at dotCampus, offering personalized guidance on technical skills, career pathways, and personal growth, aiding their development in the tech field.

REFEREE

- Available upon request
